

 **NORTON**  
INDUSTRIES LIMITED

Marble | Granite | Stones

Norton Industries Ltd. is one of the leading companies in Nigeria, specializing in Marble, Granite and other Natural stones procured from all over the world. Since its establishment in 2000, Norton has developed a strong presence in Nigeria holding one of the largest warehouses in Lagos, as well as offices in Abuja, Kano, Portharcourt, Asaba, Niger and Mali. Over the years, Norton has been able to excel in its field by ensuring high standards of selection in block procurement, developing strategic alliances with quarries and having a relentless focus on quality and customer centric approach.

Norton Industries Ltd. is well known for its variety, quality and good supply chain capability. It can accommodate all project sizes and budgets from multi- storied residential and commercial buildings to private homes. We have established a clientele in the domestic market including wholesalers, retailers, builders, architects and home owners.

#### VISION

Our vision is to be the largest and most reputed natural stone importers in Nigeria by developing quality products that adhere to international standards. We want to grow and let our customers flourish. We have visualized achieving our objectives by discovering the rich natural treasure hidden in the mines and making it accessible to the world of construction and architecture. Norton fulfills its vision of growing and succeeding by following its principles strictly without any compromise.

#### MISSION

The mission of Norton is to best serve the construction industry by supplying the highest quality of natural marbles and stones. We believe in leadership through excellence. Our organization has been founded on the strong principles of quality, integrity and transparency. These values have been our guiding lights on our road to excellence and global leadership.

# MARBLE

Marble is one of the oldest and most widely used materials in construction. It is an elegant natural stone with varying colors and patterns. Its composition contributes to a mirror like polish finish which truly gives it a unique look and feel. It can instantly elevate the appearance of a space, giving it a regal bearing which is hard to imitate. Its durability allows it to withstand a variety of temperatures and weather conditions making it last for a lifetime. Every single piece of marble is one of a kind and thus provides uniqueness to the site. Its versatility allows it to be used for any surface areas from bathroom floors, kitchen countertops to wall furnishing.

# GRANITE

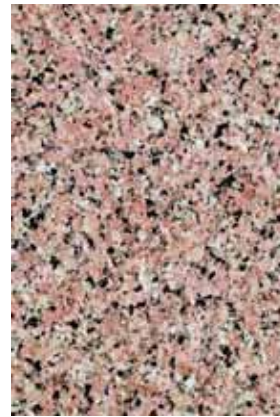

Granite is an intrusive igneous rock which is widely distributed throughout the Earth's crust. Not only is it a strong and durable material that can last a lifetime, it is also very versatile coming in many beautiful colors and patterns. Every block of granite extracted from quarries around the world portrays a distinct appearance thereby making it unique. Granite is stain resistant making it a perfect material for kitchen countertops. It is also hypoallergenic and does not retain liquids or moisture. Overall, it adds an instant value to your site.

Ever since its foundation, it has been the policy of the company to stock quality materials with correct specification of the African market, such as exact 10mm, 18mm, 20mm or 30mm thickness of slabs, uniformity in thickness as well as controlled variation in the colors. This in turn helps customers to complete their projects successfully on time, avoiding delays in approval from consultants.

Our stockyard is amongst the largest in the country and provides the widest range of readily available material. Large quantities of marble, granite and other natural stones are available in ready stock for delivery in Nigeria and neighboring countries. Norton offers slabs in 1.8 cm, 2 cm and 3 cm thickness. The standard tiles of 60x30x1cm as well as 60x30x2cm are available in most of the colors and in some colors 60x60x2cm and 40x40x2cm tiles are also available. You can find all the popular colors available in ready stock in different sizes as well as kitchen top, vanity top, treads and risers

# Why Us?

**Experience:** Our founders have more than 20 years of experience in the marble and granite industry and are considered as pioneers of the trade

**Product:** Norton Industries Ltd. enjoys the reputation of having high quality materials at the most competitive price. This has been possible due to strong tie ups with major giants of the stone industry all over the world.

**Personal Touch:** Our product experts have strict quality control measures and personally inspect each block and each slab of marble. Norton Industries Ltd. closely monitors factory operations giving prompt and personal service to its employees. It maintains supervisors specifically for quality control and ensure that materials are delivered as originally specified.

**Global Network:** Our long established relationships with quarry owners in various countries make us their preferred partner for the Nigerian market.

**We demand excellence** : We aim to become a fully sustainable company by implementing world-leading innovations in technology and techniques used for the procurement, production and installation of natural stone.

**We work together** : We work together to bring out the best in each other. Our company policy targets on working closely with the clients and providing optimal solutions to their natural stone requirements and ensure that they receive full and true information about the materials and their natural sources. Norton Industries Ltd. prides itself on friendly, responsible, professional and consistent client relationship.

**We work with integrity** : We do business with strong corporate governance and maintain high professional standards. We garner the growth of our personnel and aim to maintain the working standards which meet their needs at the best standards. Norton Industries Ltd. recognizes the importance of human capital to the industry and our performance and in turn will always aim to preserve the health, safety and environment of all those involved with us.
